

CAL/PMW

11th January, 1984

Dr. D.B.L. McClelland,
Director,
B.T.S.
R.I.E.

Dear Brian,

Thank you for your letter of 30th December, about exchanges of commercial factor VIII with Belfast. The exchange was agreed early in 1983 because at that time SNBTS ~~factor~~ factor VIII was in very short supply. The first part of the exchange arrived shortly after the negotiations and at the time SNBTS material markedly improved. The material that has arrived recently just completes the exchange. As I understand it we are now quits with Belfast.

Yours sincerely,

C.A. Ludlam
Consultant Haematologist
