Dear Colleague

SURROGATE TESTS FOR NON-A, NON-B HEPATITIS

I have received a copy of the draft protocol from Dr McClelland. As I explained at our previous meeting, Dr Brian Dow has just newly completed his PhD at Glasgow on Non-A, Non-B and I thought you would like to have a sight of a special report I have asked him to prepare to help the discussions along when next the matter is on our agenda.

Kind regards.

Yours sincerely

Director
