 Director.(Acting)
 Protein Fractionation Centre
 21 Ellen's Glen Road
 EDINBURGH

Dear Bob

HEAT-TREATED FACTOR VIII

Thank you for your letter of 6 December. The first batch of 1,094 vials has now arrived and these have been distributed via Dr Crawford who is co-ordinating the action in this Region. We look forward to seeing additional quantities of heated product at twice the minimum/maximum stock level to assist us in replacing domestic and blood bank stocks.

Bob has already written to you concerning a possible plan of action for replacement supplies, and more importantly, for ultimate batch dedication. As we make the replacements over the next weeks, we will arrange to receive back the non-heat treated product and this will be made available to you as part of the replacement programme.

Yours sincerely

Director
