Dear Frank

CLINICAL EVALUATION OF HT FVIII 68°/24 HR

Just a quick note to let you know that the first two batches of this material will be available for issue for clinical trial within the next 2 weeks.

As you know we are anxious to get this product trialled as quickly as possible and perhaps you could let me know whether the necessary arrangements have been made at your end and the expected duration of the trial. This latter aspect is of particular importance since it will condition our ability to subject the bulk of our current FVIII production lots to the new heat treatment.

With kind regards.

Yours sincerely

R J PERRY
Director
