

F8 DISTRIBUTION

0082

GLASGOW AND WEST OF SCOTLAND
BLOOD TRANSFUSION SERVICE

MEMORANDUM

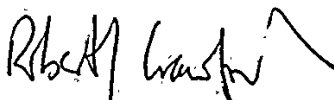

TO: Processing Staff
FROM: Dr RJ Crawford

DATE: 27 August 1991 REF: RJC/EL
SUBJECT: High Purity Factor VIII, French Product

You will be interested to hear that this product has been found effective in practice and that the Yorkhill haemophiliac patients are delighted with it. Only one adverse event has been reported, the patient had a feeling of drowsiness, but this was attributed to other features of his clinical condition.

My thanks are due to Mr Jim Keary for obtaining this information.

Great credit is due to everyone whose efforts helped in the smooth introduction of this product into our issue and distribution system.

RJ Crawford
