Dear Dr Cash

HEAT-TREATED FACTOR VIII

Following our recent telephone conversation may I confirm that the licensing authority wishes to encourage all companies involved in the production of Factor VIII to use a dry heat process in the course of manufacture.

We are inviting each company to consider this proposal and, hopefully, to make early (abridged) application for a new product licence.

I look forward to hearing from you in the near future.

With best wishes.

Yours sincerely

M E DUNCAN
