Dear Ms Turnbull

Re: The Penrose Inquiry

Thank you for your letter of the 29/08/11.

I can confirm that the City Hospital Screening Clinic for HIV began operating, I think in October 1985, and is still operating although it transferred along with the rest of the Infectious Disease Unit to the Western General Hospital in 1998.

It is possible that the Inquiry will want further information concerning this clinic. If that is the case then please note that I will be on holiday from [REDACTED] until [REDACTED].

Kind regards

Yours sincerely

R P Brettle
