

NOS/26/8/7

30

Extract from MINUTES OF MEETING OF REGIONAL DIRECTORS IN  
ST ANDREWS HOUSE ON TUESDAY 6TH MAY 1969

7. Notification of hepatitis

The Chairman agreed to raise the question centrally of local health authorities possibly notifying directors at regular intervals of -

- (i) Patients developing infective jaundice at a relevant period after having had blood or blood products.
- (ii) Contacts in a household who are donors.
- (iii) Cases where the patients are donors and who might have given blood whilst infected.

Dr. Cameron indicated the success as far as he was concerned of the voluntary notification project in the Eastern Region.
