RE LETTER OF DECEMBER 18 FROM DR DAVIES SUBJECT RAISED IN CONVERSATION WITH HOWARD TODAY.

I SUGGESTED HE NEEDED TO BE A LITTLE PATIENT A LITTLE LONGER. PRODUCTION OF INTERATE HERE IS NOT YET STARTED AND WILL STILL HAVE VOLUME PROBLEMS FOR SOME TIME UNTIL CRYO USE STARTS TO FALL AND UNTIL SUPPLIES OF F.F.P. INCREASE TO REASONABLY STABLE FIGURE ABOVE 500 DONATIONS PER WEEK.

NATIONAL STOCK (AT PFC) IS 103 UNIT DOSES AGAINST EMERGENCY ALSO CARRYING AGREED LOAD OF HIGHLAND AND ISLANDS RUNNING TO ABOUT TEN DOSES PER MONTH STEADY.

SUGGESTED APRIL LIKELY EARLIEST DATE ON WHICH ESTIMATE OF REGULAR OUTPUT WILL BE AVAILABLE.

REGARDS

JOHN WATT.
