Dear Peter,

I enclose two papers which you may wish to read before I visit PPC on Friday 18th. The page-proofs were a bit mangled but possibly intelligible with the aid of an ice-pack. The manuscript is a late draft of a paper recently accepted by Transfusion.

BSPC/PPC is being taken, at least temporarily, into the bosom of the NHS, with a RHA as agent. I hope we can get five minutes to discuss what we might learn from PPC's experience.

With my best wishes

Jim
