Dr G S Gabra
 West of Scotland BTS
 Law Hospital
 Carluke
 Lanarkshire

Dear Dr Gabra

The samples of dried cryoprecipitate supplied by you have been assayed producing the following results:-

<u>SAMPLE NO.</u>	<u>TOTAL PROTEIN g/l</u>	<u>CLOTTABLE PROTEIN g/l</u>
2001	20.7	5.8
2002	26.4	8.7
2003	25.2	8.0
2005	26.1	8.7
2006	40.2	11.1
2007	50.5	12.2
2008	22.3	7.8
2009	27.5	8.4
2013	20.6	6.2
2014	32.1	9.6
2015	37.0	12.1
2016	33.3	9.4
2017	30.5	8.4
2018	21.3	7.5
2019	17.1	5.3
2020	21.4	6.9
DWA	30.0	7.6
DWB	58.5	17.6
DWC	33.7	8.7
DWD	39.1	14.3

Total protein was measured using the biuret method, with clottable protein estimated by a variation of the biuret method, clotting the test sample with thrombin.

I look forward to hearing from you when you have assembled the other test results.

Yours sincerely

T A McQuillan
 Laboratory Manager
