Dear Charles,

Trial of Heat Treated FVIII

John Cash has just passed to me the good news that you may be able to help in the clinical evaluation of our 2nd generation heated FVIII (68°/24 hours).

I have therefore made arrangements for 40 vials of each of the following heat treated batches to be sent to you via BTS on Tuesday 2nd April. I hope this is convenient. (3401-50020, 3401-50030).

I will copy this letter to Dr. Mitchell to keep him informed of the arrangements.

Many thanks again for your offer of help.

With kind regards.

Yours sincerely,

Dr. Robert J. Perry
