I tend to agree with your views and preferences for FVIII names. The most compelling justification for your proposal is the potential confusion surrounding our overlapping developments in this area.

Accordingly I will write to RTD's to inform them of our new nomenclature but in so doing it would be helpful if I were able to give some approximate estimate of a timetable for the introduction of the respective variations. Can you advise on this please?

I would further suggest that for the sake of simplicity we restrict the system as follows:

FVIII HT	-	To include 68 ⁰ /2 hr, 24 hr, 72 hr, since we will not publicly be announcing the 68 ⁰ variant.
Z8	-	80 ⁰ /72 hr.
REAL 8	-	PFC/NYU.

It would also be appropriate at this stage to involve the PFC packaging committee so that they can make the necessary arrangements for label/pack design.
