Dear Colleagues

## SUPPLY OF HIGH POTENCY FVIII

Arrangements have been made for the supply of Lille High Potency FVIII to commence this month. My understanding is that, in the first instance only Glasgow and Edinburgh Centres will be using this material.

Product will be available on an allocation basis as follows:

Glasgow

174,000 iu/month

Edinburgh

116,000 iu/month

These quantities will be issued in the normal way to RTC's who will then ensure material is dispatched to your Centre with other product deliveries.

With kind regards.

Yours sincerely

Dr R J Perry Director
